CITYVIEW HOW TO

Stouffville is pleased to offer CityView – an online system to apply for and track your applications. This online system allows you to apply for and see the status and updates

of your application anywhere, at any time. Please use the screenshots below as a guide as well as a link to the support fillable form in the footer if you require support.

GETTING STARTED WITH CITYVIEW:

Creating and submitting application on CityView through Stouffville's online portal is quick and easy. To do so, you'll need to follow the few steps outlined below. Stouffville and CityView will instruct you how to complete and submit the application. Once submitted, it will be reviewed. Look out for communication through the portal back to keep your application on track with review and processing.

List for required documentation will change for each type of application and each unique property and proposal, but at a minimum:

- □ Site plan (Fully Dimensioned)
- Completed application form including the Owners Authorization, Commissioned Page Declaration Page, and Permission to Enter.

Most planning application types include the requirement of a Preconsultation with Town Planning Staff. Through this process you will be provided with a "Technical Materials Checklist" which forms the basis of what is required for a "Complete Application" as defined by the *Planning Act*.
